Company Overview

Achievements

Sustainability 

Business Overview

Future Outlook

ESG Corporate Sustainability

Sustainable

We plan ahead on sustainability and adopt international certifications.

Governance

A Sustainability Committee guides corporate and environmental goals.

GHG inventory

A Greenhouse Gas Inventory Team manages emissions tracking.

Ethics Cultivation

Annual training covers human rights and ethics.

In 2025, RH self-owned factories in Mainland China obtained FSC (Forest Stewardship Council) certification, fully implementing traceable and responsible sourcing management systems.

Rich Honour upholds integrity and respect as core values. We promote sustainable governance and carbon reduction to align business growth with social responsibility.

2024 ESG Report link : <https://www.richhonour.com/pdf/sustainabilityReport2024.pdf>

Delivery | Quality Warranty

256
Industry-Related
Licenses

Delivering advanced technology and timely projects, ensuring safety and compliance without compromise.

9
International
Certification

Beyond design, we elevate project quality, sustainability, safety, and ethics to globally recognized standards.

RHQ

FSC

ISO 9001

ISO 14001

ISO 37001

ISO 45001

SA8000

Safety Production

RHF

ISO 14001

SA8000

We continuously advance corporate sustainability governance and social value in practice, guided by international standards.

ENVIRONMENT | Sustainability Performance

4.65%↓ **Energy** 

Total energy consumption was 10,275.69 GJ, with an intensity of 2.01 GJ/million, 4.65% lower than last year.

84.51 %
20.08 % **Recycling** 

General waste: 262.89 tons, 84.51% recycled; Hazardous waste: 15.64 tons, 20.08% recycled.

20 Projects
(2024-2025 LEED) 

5.4 % ↓ **GHG** 

Total Scope 1+2 emission intensity: 0.245 tCO₂e/million, down 5.4% from last year.

13 Projects
(2024-2025 綠建築) 

Turning green commitments into action, promoting carbon reduction and circularity as standard practice in design.

SOCIAL | Humanistic care and workplace safety

Safety

Zero major occupational injury incidents; continuous operation of the SA8000/ISO 45001 system.

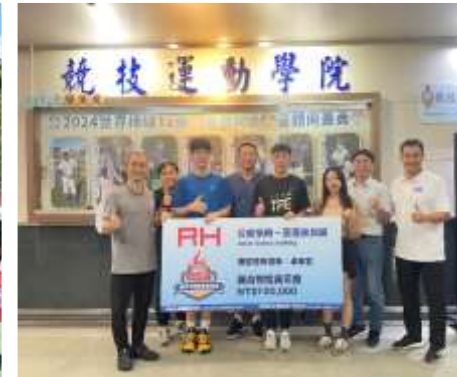

Health

The head office implemented four major occupational health plans, and the annual health check results showed zero occupational disease cases.

DEI

Promoted regular communication between the DEI initiative and labor relations, resulting in 0 labor disputes throughout the year.

People-centered, fostering a safe, healthy, and inclusive workplace where every effort is valued.

GOVERNANCE | 誠信治理與風險管理

legitimate DDC due diligence completed; review cleared with no concerns.

Transparent Transparency and timely disclosure meet corporate governance standards.

Information security 100% of new employees completed cybersecurity training; zero major incidents this year.

Integrity Compliance education fosters a lawful, ethical culture.

Customer Trust Customer satisfaction: 87.8; eco-certified materials ensure safety.

Taiwan Stock Exchange
Corporate Governance
Evaluation

11%-20%

Ranked in the top 3 tier for companies with a
market value below NT\$5 billion

Taiwan Index Corporation
Sustainability Assessment

BBB

Attained a medium-to-high ESG rating,
setting the stage for higher standards
ahead.”

Core values of integrity and transparency drive us to build a trustworthy, sustainable brand.

GOVERNANCE | Technology Application

AI × Large-scale Interior Design: From efficiency to innovation, step by step

Quick results

- ◆ AI-assisted document handling
- ◆ Creative ideation support
- ◆ Exploratory and diverse design development
- ◆ AI knowledge exchange
- ◆ Pilot project partial rollout
- ◆ Feedback collection and usage optimization

Gradual expansion

- ◆ Cloud-based project management platform
- ◆ Automated workflow integration
- ◆ Existing system interfacing
- ◆ Parametric design and construction planning
- ◆ Internal AI talent development
- ◆ AI application workflow standards

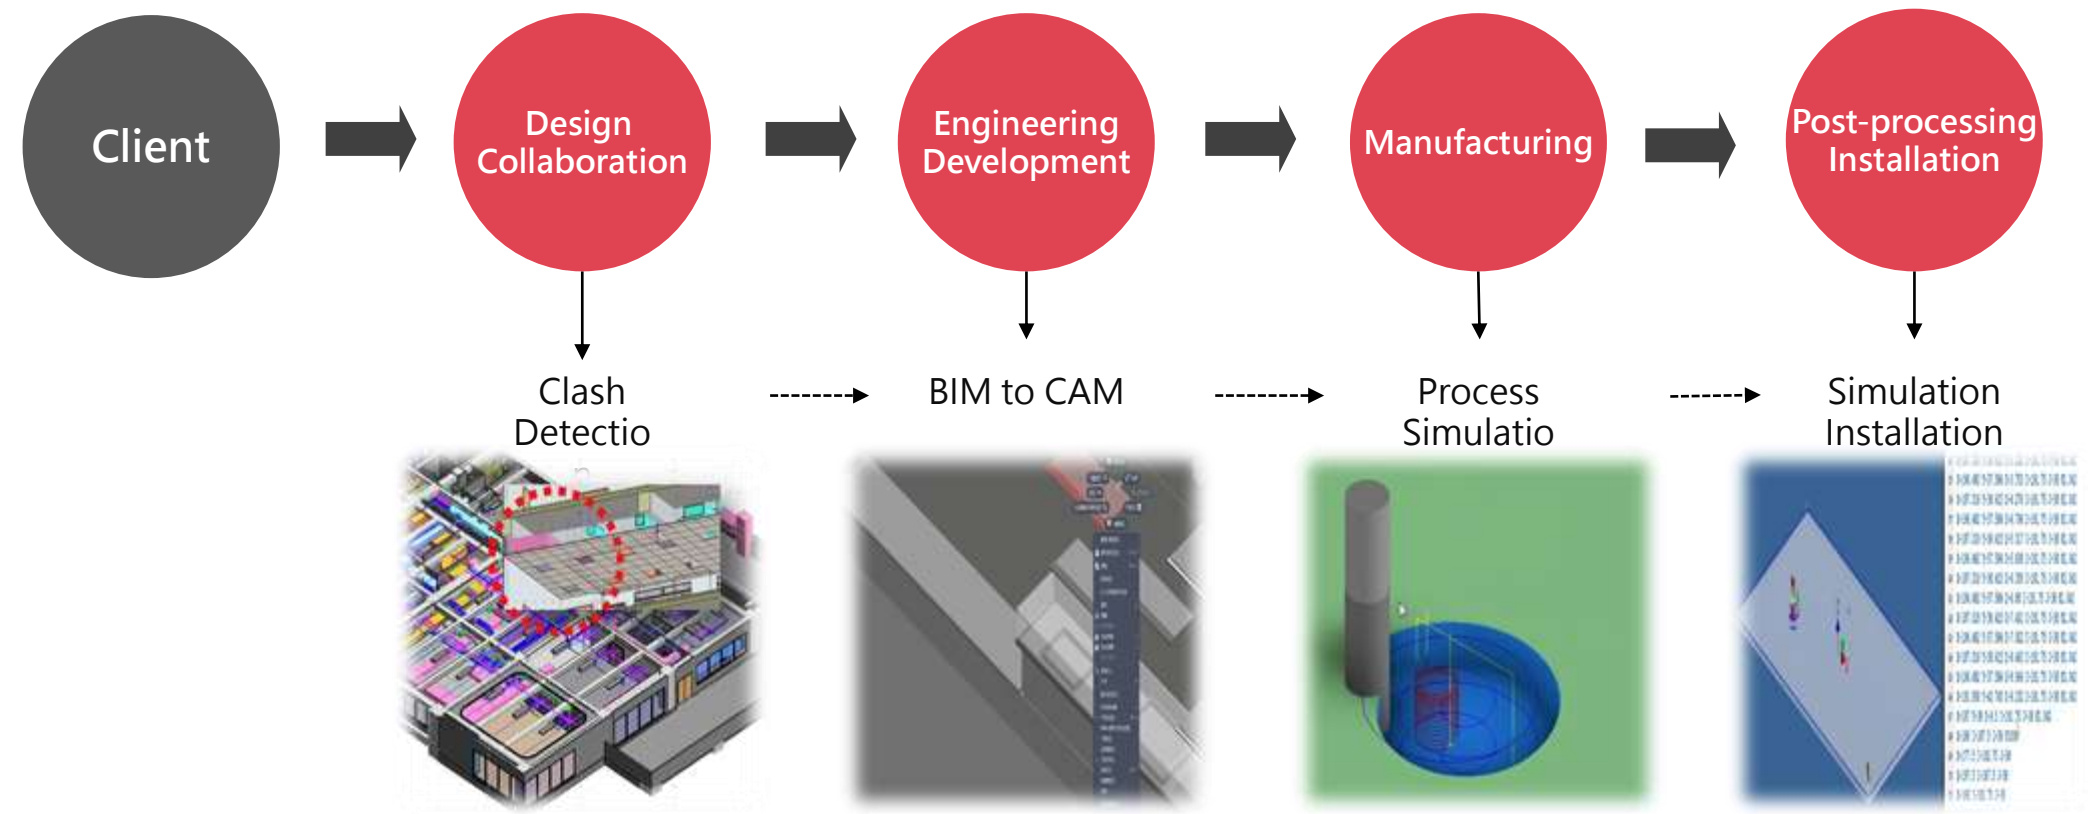

Strategic layout

- ◆ Proprietary AI integration platform
- ◆ Knowledge graph and model library
- ◆ Proprietary model library
- ◆ Quality review and validation mechanisms
- ◆ Tiered AI competency training system
- ◆ Reusable asset accumulation

GOVERNANCE | Technology Application

BIM drives collaboration, fabrication, and operations, powering sustainable performance and quality improvement.

Expansion by global and local firms boosts Grade-A office market.
High-end hospitality and global hotel brands expand rapidly.”

Large-scale shopping malls
8 new sites planned
Approx. 260,000 ping floor area

Far Eastern Garden City – Zone B Shopping Mall
CITYLINK Sanchong Shopping Mall
Taichung Hanshin Intercontinental Shopping Mall
Taichung D-ONE Shopping Mall
Esky Fun Shopping Mall
LaLaport Kaohsiung Fengshan Shopping Mall
Mitsui Outlet Park Tainan Phase II Shopping Mall
Uni-President Dunfu Shopping Mall

2026 new office supply:
115,000 ping
Peak in recent years
Driving renewal of premium offices

Shin Kong Huashan Financial Center
Leofoo Hotel-Style Office Building
Nan Shan A26 Building
Lien Chyueh Zhongwei Building
Taichung D-ONE Shopping Mall
Cathay Xiaokuaixi Commercial Building
Taipei Nangang Transfer Station Building
Kaohsiung Qianjin Building

Over the next three years, more than 15 international brand star-rated hotels are expected to open

Andaz, Autograph Collection
Four Seasons Taipei
InterContinental Taipei
JW Marriott
Le Méridien Banqiao
Park Hyatt
Voco Shinlin

Challenges

- Rising labor and schedule pressures
- Material price volatility, constrained supply chain
- Stricter ESG and carbon regulations

Opportunity

- Urban renewal drives high-value markets
- Growth in project management & customization
- Smart green & sustainable design mainstream

Advantages

Connected to global platforms, delivering integrated and efficient services.

Service | Technology | Sustainability | Governance

Service Strategy | Deepening One-stop Consulting

One-stop Consulting

Integrated Design × Engineering × Project Management – One-stop Full-service

Cross-industry Alliance

Cross-industry Consulting Collaboration to Expand Tech & Services

Innovation | Technology-driven Efficiency

Digital Tech Application

Develop Digital Tech to Boost Design & Engineering Efficiency

Cloud & Risk Management

Cloud Platforms & Risk Forecasting to Enhance Execution and Control

Sustainability | ESG-driven Green Competitiveness

Driving Sustainable Engineering

Low-carbon Materials & Modular Construction for Sustainable, Low-carbon Building

High-end Client & Sustainability Integration

High-end Offices & Luxury Brands | Sustainable Design & Green Competitiveness

Talent Cultivation | Securing Long-term Growth

Cultivating Multi-skilled Talent

Maintain Technical Leadership via Internal Training & External Talent Acquisition

Corporate Culture Enhancement

Resilience & Cross-domain Collaboration Boost Adaptability and Innovation

Seize Opportunities | Expand Business
